One of the hottest trends

in home renovation is custom outdoor living spaces with full, matching Outdoor Kitchens that fit seamlessly into the designs.

BULL is proud to introduce an effective time-saving solution.

NPT® Unfinished Outdoor Kitchens feature Bull BBQ stainless steel grill heads and components built into quality outdoor island kitchens finished to your specifications with beautiful NPT tiles and veneers or the granite of your choice.

NPT Unfinished Outdoor Kitchens offer an effective, time-saving solution for creating a beautiful, customizable outdoor kitchen with easy installation and minimal labor. Featuring the most popular equipment and designs, NPT Unfinished Outdoor Kitchens feature size options to fit any backyard plan. These prefabricated unfinished base structures can be fitted for either a tile or slab countertop.

Create the outdoor kitchen of your dreams to be finished on site at your home with NPT finishes that match your total backyard design.

Searing Burner / 20,000 BTUs
ITEM # BOP-95-5070

Please Note: Be sure to read and adhere to all warning and caution details as noted in each of the Bull Outdoor Products equipment items including grills and refrigeration. Always review and adhere to local codes. Unfinished kitchens are fitted with the minimum ventilation as required by ANSI standards. For safety reasons, these vents should not be covered or blocked in the final build. Take care to ensure that all kitchen construction is not placed within 21" of combustible items. Placing a kitchen against wood or vinyl siding does not adhere to ANSI Standards. We recommend any cutouts placed in the base structure for utilities not be in the area close to where the refrigerator will be located. Unfinished granite ready bases are manufactured to work best with granite slabs of 1½" in depth. Tile ready countertops are not recommended for granite slabs because this design includes a 1" x 2" metal trim that does not accommodate the suggested slab specifications and is ideal for porcelain tile application only. The kitchen equipment in this kit will arrive in their shipping boxes and will require installation by the contractor. Ventilation and GFCI are included and installed in the base. Unfinished Kitchens will be prepared for shipment wrapped and strapped for pickup.
