

Easy to Operate

An easy-to-access digital LCD controller enables touch-button operation and displays self-diagnostic notifications written in wording that makes sense to you, in the language of your choice.

Dual Thermostats

Have your pool heated and your spa too! Dual thermostats allow you to enjoy your pool/spa combo as you like with water that's warm enough for you to swim in and a spa that's perfectly heated for a relaxing soak.

SOUNDSHIELD™ Integrated sound-dampening technology

SoundShield™ Technology

Not a fan of loud noises? Heat your pool and/or spa with significantly less noise. Specially designed SoundShield Technology consists of a swept-wing blade design to decrease turbulence and a decibel dampening acoustic blanket to help muffle compressor reverberation for even quieter operation—because you should feel the heat, not hear the heat pump.

Perfect Pool Temperature Year-Round

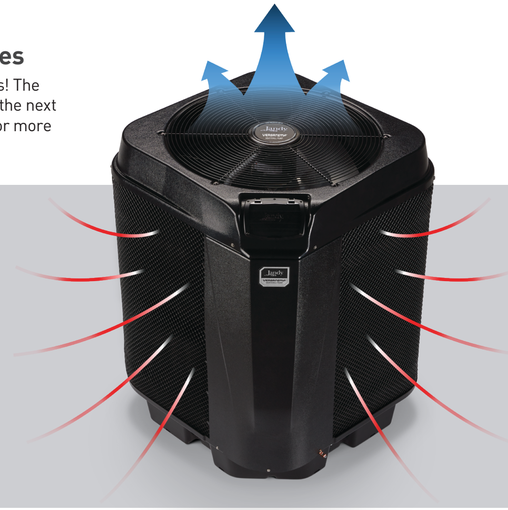

Why settle for just warm when you can have it any way you like... No matter what your preference, Jandy VersaTemp™ features innovative thermo control technology that can make your pool water the perfect temperature by either drawing heat from the air to warm the water or removing the heat from your pool to cool it down.

Performance that Saves

Bring on the heat with more BTU's! The VersaTemp takes performance to the next level with increased heat output for more efficient and faster heating.

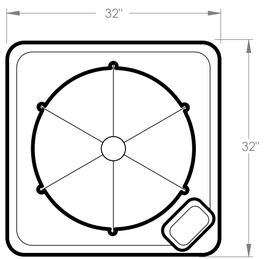

HEAT EXCHANGER 5 YEAR LIMITED WARRANTY

Smaller Footprint

The VersaTemp features a smaller footprint* for more compact pool pad setups.
